Attainment of POs and COs

Writing appropriate POs and PSOs, which are based on the college's vision and mission statements and the corresponding programmes it offers, is the first step in achieving PSOs and POs.

The more comprehensive and inclusive qualities that a student exhibits at the program- specific completion of a particular programme, such as a B.A., B.Sc., or B.Com. Programme Results of the particular course are created collaboratively by the departments involved, utilising Bloom's taxonomy's action verbs of learning levels. These are then presented for discussion and approval at meetings of the Academic Council and Boards of Studies. Discussions centre on whether the departments' adopted course assessment techniques provide an emphasis on meeting the learning objectives expressed as Course Outcomes.

The first stage in determining the college's achievement level is as follows. The curriculum is structured in accordance with outcome-based education in order to achieve the desired results.

Bloom's taxonomy is used to define POs and PSOs at several levels, ranging from Lower Order Thinking Skills (LOTS) to Higher Order Thinking Skills (HOTS). Similarly, predetermined Course Outcomes specify what learners should know and be able to accomplish by the end of each course. These have to do with the abilities, comprehension, and conduct that students have by the end of the course.

Office of the Principal, Government College Bichhua Chhindwara (M.P.) 480111

Affiliated to Raja Shankar Shah University, Chhindwara (M.P.) 480001

When course results require the PSOs for the successful actualization of outcomes, then attainment is evident. In order to do this, the COs of each programme course are to be mapped with POs & PSOs, which is still in the process of construction.

The college used two assessment methods to meet the attainment of POs and PSOs.

List of Assessment Tools

All (Direct + Indirect) CO Assessment Tools = PO

Direct Assessment Tools Sample CO Assessment Tools -

- Mid Term Test/Sessional
- End Term Test
- Quiz
- Assignment
- Practical/ Lab work
- Industrial Visit, Workshop
- Other Task/Activity
- End Semester Exam
- Oral

- Course Exit Survey
- External Feedback (External Examiner/Trainer, Campus Placement Technical Expert)
 1. Direct Assessment methods
 2. Indirect Assessment methods

Direct Tools : (Measurable in terms of marks and w.r.t. CO)

Assessment done by faculty at Institute level. The obvious direct means to ascertain the attainment of course outcomes are the assessment techniques, both formative and summative. Course outcomes are directly related to direct assessment methods such as Continuous Comprehensive Evaluation (Formative assessments), which are part of internal assessments and are completed through quizzes, assignments, projects, midterm exams, student seminars, poster presentations, and more. These methods account for thirty marks, and semester end exams account for seventy marks. The effectiveness of these tools hinges on creating an assessment question paper, project topic, or term paper prompt that evaluates students' application skills in addition to their conceptual understanding of the material and their analytical and critical thinking abilities.

Therefore, consideration goes into creating test questions that assess application, analytical, synthesis, and evaluation skills.

<https://www.govtcollegebichhua.org>, <https://www.highereducation.mp.gov.in/?orgid=109>

Established on 21/09/1989, Recognized under 2 (f) & 12 (B) of the UGC Act, 1956

Affiliated to Raja Shankar Shah University, Chhindwara (M.P.) 480001

Indirect Tools : (Nonmeasurable in terms of marks and w.r.t. CO)

Assessment done at University level. The assessment automatically gauges the achievement of the course and programme outcomes when the questions are constructed in this way. Thus, an assessment of the achievement of PSOs and COs results from a mapping of course outcomes and formative and summative exam papers.

The pass percentage of students, for the academic year 2022–2023, is often used to calculate the COs. This represents the mean performance across all courses. The course feedback forms are also used for the indirect assessment of COs.

Define threshold value for Attainment :

Attainments of CO's are calculated by using university examination results. Attainment levels are finalized at college level and conveyed to IQAC through Internal Examination Committee. The attainment level of each CO is computed by setting weights as follows:

Weight Benchmark

1. Number of students securing below 35%
2. Number of students securing above 36 to 45 %
3. Number of students securing above 46 to 60 %
4. Number of students securing 61% and above %

The averages attainment of COs of each course is mapped to POs & PSOs.

Overall Attainment (ESE & CIA) of course

Total % attainment of course 72.87

Office of the Principal, Government College Bichhua
