NAAC CRITERIA II

2021-2022

TEACHING- LEARNING THROUGH ICT TOOLS

The Sustainable Development Goal #4

2.3.2 - Teachers use ICT enabled tools for effective teaching-learning process. Write description in maximum of 200 words
- The College pursues ICT-based education in addition to traditional classroom education. The institute is making further efforts to create a learning environment in the classroom.

- LCD projectors are installed in all of our classrooms and laboratories, and teachers are encouraged to apply innovative teaching techniques in addition to traditional classroom (chalk and talk) teaching methods.

- The major emphasis is on classroom interaction in terms of paper presentations, seminars, debates, group discussions, assignments, quiz/tests/viva and laboratory work.

- Faculty uses a variety of teaching approaches, including group discussions, seminars, and student presentations to aid in the comprehension of topics and technology through the use of ICT.

- In addition to teaching methods, faculty members use IT-enabled learning tools such as PPTs, video clips, audio systems, and online sources to provide students with advanced knowledge and hands-on learning.

- WLAN functionality for Internet access is provided on individual laptops and mobile devices. Wi-Fi users are provided with sufficient security. Access is controlled by the system administrator.

- The college features a well-stocked central library with books, e-books, magazines, technical publications, which serve as a knowledge resource.

- Students develop communication skills through the effective use of educational videos and a communication skills training facility. Regular practical sessions, access to the Digital Library, and other resources assist the teaching-learning process.
